INTRODUCTION

The Statistical Report of Kentucky Public Libraries, Fiscal Year 1992-1993 contains information taken from the Annual Report of Public Libraries. The statistical report is separated into seven sections:

- a summary of library statistics for the most recent year, and comparisons with the three prior years
- graphs showing statistical trends in library expenditures, book collections and circulation
- county by county library statistics in 87 categories
- a select group of the above statistics arranged in order of county population
- a glossary of terms used
- the cross-index of county and item number by page number. This provides a quick means to locate a county statistic.
- **a series of maps**

The maps, found in the last ten pages of the *Statistical Report*, should provide a new and meaningful way to visualize the data tabulated in this publication.

This year's edition of the *Statistical Report* is available on diskette for users of IBM-compatible personal computers. To receive the electronic edition of pages 9-35 please enclose a formatted 3½" labeled diskette. Specify the program and version number you will be reading this data into:
